PROJECTS

Personal Portfolio Website — MERN Stack

aayushlabs.vercel.app

- Developed a full-stack portfolio application using MongoDB, Express.js, React.js, and Node.js, with database-driven project content and responsive UI.
- Built RESTful APIs and reusable React components for efficient client-server communication and scalable feature development.
- Containerized the application using Docker and implemented CI/CD automation with GitHub Actions for automated build and deployment.

Real Estate Web Application — MERN Stack

real-estate-project-forntend.vercel.app

- Developed a full-stack real estate platform with property listing, search, filtering, authentication, and property management using MERN Stack.
- Implemented RESTful APIs, JWT authentication, MongoDB aggregation pipelines, and Redis caching to optimize data retrieval and application performance.
- Designed a responsive UI using Tailwind CSS and Bootstrap and containerized the application with Docker for consistent deployment.
